

# CLIA Compliance Manual for Access 2 Immunoassay System Analyzer

## Table of Contents

Getting Started With the Access 2 .....	i
Policies and Procedures Approval Form.....	ii

### **TAB 1: PERSONNEL ..... 1-1**

Laboratory Personnel Policies .....	1-1
Laboratory Director Responsibilities .....	1-1
Laboratory Director Qualifications for Moderately Complex Testing.....	1-2
Other Laboratory Personnel .....	1-2
Testing Personnel Qualifications.....	1-2
Testing Personnel Responsibilities .....	1-3
Testing Personnel Job Description .....	1-3
Laboratory Personnel Titles.....	1-3
Procedures for Laboratory Personnel Training and Evaluation .....	1-4
Personnel Training.....	1-4
Personnel Competency Evaluation.....	1-4
Continuing Education.....	1-5

### **TAB 2: PROFICIENCY TESTING (PT) ..... 2-1**

PT Policies .....	2-1
PT Procedures .....	2-1
PT Results Analysis.....	2-2
Troubleshooting Failed and 'Not Graded' PT Results.....	2-2
Retesting Retained PT Samples .....	2-3

### **TAB 3: THE LAB AREA: SAFETY AND ENVIRONMENTAL MONITORING ..... 3-1**

Laboratory Safety Policies .....	3-1
Laboratory Safety Procedures .....	3-1
Safety Precautions for the Laboratory Area.....	3-1
Safety Precautions for Working With Potentially Infectious Material .....	3-1
Reagent Safety .....	3-2
Miscellaneous Access 2 Safety Hazards .....	3-2
Procedure for Reporting Device-Related Adverse Events .....	3-2
Hazardous Waste Disposal .....	3-3
In Case of Accident.....	3-3
For More Information .....	3-3
The Testing Environment.....	3-4
Policy for Monitoring the Testing Environment .....	3-4
Procedures for Monitoring Temperatures .....	3-4
What to Do if Temperatures Are Out of Range .....	3-4
Phases of Testing .....	3-4

### **TAB 4: PREANALYTIC POLICIES AND PROCEDURES ..... 4-1**

Policies for the Preanalytic Phase of Testing.....	4-1
--	-----

Procedures for: .....	4-1
Test Requisitioning .....	4-1
Handling Incomplete Requisitions .....	4-1
Standing Orders.....	4-1
Specimen Collection and Handling.....	4-1
Venipuncture Procedure .....	4-1
Capillary Blood Collection Procedure.....	4-3
Specimen Transport Procedures .....	4-4
Specimen Accessioning Procedures .....	4-4
Specimen Handling Procedures .....	4-4
Specimen Rejection Criteria.....	4-4
Criteria for Referral of Specimens.....	4-4
Verifying Performance Specifications .....	4-4
Method Validation Policies .....	4-4
Method Validation Procedure .....	4-5
Comparing a New Test System to a Previous Method: Split Sampling .....	4-6

**TAB 5: ANALYTIC POLICIES AND PROCEDURES ..... 5-1**

Analytic Testing Policies .....	5-1
Procedures for: .....	5-1
Reagent Tracking .....	5-1
Reagent Changing.....	5-1
Specific Reagent Information.....	5-1
Reagent Preparation.....	5-1
Reagent Storage.....	5-1
Materials, Controls and Calibrators .....	5-2
Reagent, Controls, Calibration Kit Supplier.....	5-2
Control/Calibrator Preparation .....	5-2
Control/Calibrator Storage and Stability .....	5-2
Instrument Maintenance .....	5-2
Quality Control Policies.....	5-2
QC Procedures .....	5-3
Frequency of Testing QC.....	5-3
Examining Control Results .....	5-3
Establishing Mean And Range for New Control Lot Numbers .....	5-4
Sending QC Results to QAP.....	5-5
QC Record Retention .....	5-5
Calibration Policies .....	5-5
Calibration Procedures .....	5-5
When to Calibrate .....	5-5
How to Calibrate .....	5-6
Calibrator Preparation .....	5-6
Verify that Calibration Is Acceptable.....	5-6
Calibration Records .....	5-6
Procedure for Performing Patient Tests.....	5-6
Testing Patient Samples.....	5-6
Rerunning A Test .....	5-6
Procedure Notes.....	5-7
Limitations of the Procedure .....	5-7
Access 2 Fast Reference Sheet .....	5-8

**TAB 6: POSTANALYTIC POLICIES AND PROCEDURES ..... 6-1**

Policies for Interpreting, Reporting and Recording Test Results ..... 6-1  
Procedures for: ..... 6-1  
    Interpreting Results..... 6-1  
        Interfering Substances ..... 6-1  
    Reporting Results ..... 6-1  
    Reference Ranges ..... 6-1  
    Reportable Ranges..... 6-3  
    Troubleshooting Flagged Results ..... 6-4  
    Documenting and Retaining Troubleshooting Records ..... 6-4  
    Procedures for Supervisor Review ..... 6-4  
    Turnaround Time (TAT) ..... 6-4  
    Critical Value Procedures ..... 6-4  
    Procedure for Reporting Results to Providers ..... 6-6  
    Correcting Erroneous Test Results and Issuing Corrected Reports ..... 6-6  
    Communications and Laboratory Complaints ..... 6-6  
    Incident Management ..... 6-7  
    Procedure for a Power Failure/ Computer Crash ..... 6-7  
    Ensuring the Security of Patient Test Results ..... 6-8  
    Verifying the Accuracy of Electronic Record Transmissions ..... 6-8  
    Procedures for Using Alternative Methods ..... 6-8

**TAB 7: QUALITY ASSESSMENT ..... 7-1**

QA Policies ..... 7-1  
QA Procedures ..... 7-1  
    Electronic Record Transmissions..... 7-4

**TAB 8: FORMS ..... 8-1**

Forms Index ..... 8-1  
    Lab Personnel Training Checklist ..... 8-2  
    Lab Personnel Evaluation Checklist..... 8-4  
    Lab Testing Log ..... 8-5  
    Specimen Rejection Log ..... 8-6  
    PT Event Report..... 8-7  
    Access 2 Maintenance Log ..... 8-9  
    ACCESS 2 Unscheduled Maintenance Log..... 8-10  
    Temperature/Humidity Chart..... 8-11  
    Maintenance and Function Checks Log..... 8-12  
    Monthly QA Checklist..... 8-13  
    Method Validation Summary Sheet..... 8-17

**TAB 9: APPENDICES ..... 9-1**

Appendices Index ..... 9-1  
    Appendix A. How To Sign Up With the CLIA Program..... 9-2  
    Appendix B. Insert QAP Enrollment Form here ..... 9-6  
    Appendix C. Split Sample Analysis Procedure ..... 9-7  
    Appendix D. High-Complexity Personnel Requirements..... 9-9  
    Appendix E. For More Information ..... 9-10
